Celebrating 50 years of tradition and excellence

in Graduate Medical Education

The name may have changed over the years, but the experiences that were shared and the bonds that were formed transcend time. The four years that we spent in the halls of Charity and University Hospitals will live within us forever. We are proud that Tulane is continuing in the tradition of preparing the Obstetricians and Gynecologists for the future. TOGAS plans to continue supporting the growth of the Tulane OB/GYN Department. But, we can't do it alone - we need your participation.

We are fired up about coming back to the Big Easy and the TOGAS dinner reception. Fun and learning - the essence of the Tulane experience. Not only is this an opportunity to reconnect with each other and the city that we can't forget - it's a chance to show the younger graduates that we are all a part of a much larger community.

That community is the Tulane Obstetrics and Gynecology Alumni Society.

So, please send your 2009 Annual dues today, and make plans to visit NOLA in the Fall of 2009.

The program has rebuilt and is as strong as ever.

Let's rebuild TOGAS the same way.
